NAME

mdatopbm - convert a Microdesign .mda or .mdp file into a PBM image

SYNOPSIS

mdatopbm [**-a**] [**-d**] [**-i**] [**--**] [*mdafile*]

DESCRIPTION

This program is part of Netpbm.

mdatopbm reads a MicroDesign file as input and Produces a PBM image as output.

If you don't specify *mdafile*, **mdatopbm** takes its input from Standard Input.

OPTIONS

- **-a** Generate Plain PBM output instead of Raw PBM
- **-d** Double the height of the output file, to compensate for the aspect ratio used in MicroDesign files.
- **-i** Invert the colors used.
- **--** End of options (use this if the filename starts with "-")
