NAME

sbigtopgm - convert an SBIG CCDOPS file to PGM

SYNOPSIS

sbigtopgm [*sbigfile*]

DESCRIPTION

This program is part of Netpbm.

sbigtopgm reads an an image file in the native format used by the Santa Barbara Instrument Group (SBIG) astronomical CCD cameras, and produces a PGM image as output. Additional information on SBIG cameras and documentation of the file format is available at the Web site, http://www.sbig.com/.
