NAME

ppmtopuzz - convert a PPM image to an X11 "puzzle" file

SYNOPSIS

ppmtopuzz [*ppmfile*]

DESCRIPTION

This program is part of Netpbm.

ppmtopuzz reads a PPM image as input and produces an X11 "puzzle" file as output. A "puzzle" file is for use with the **puzzle** program included with the X11 distribution. **puzzle**'s **-picture** option lets you specify an image file.
